Subject: Question about rodenticide RMD
Date: Tuesday, January 28, 2014 1:40:00 PM

Hi John,

John Hebert (now a branch chief in the Antimicrobials Division) told me earlier that you had left him a message about the RMD and some questions you might have. Reuben Baris is now the action PM in John's old position, and I'm one of the labeling contacts along with Jen Gaines.

If you had a few questions and wanted to put them in an email feel free to shoot them to me –

Thanks,

Gene Benbow
